DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Appeal Brief, filed 5/24/04, with respect to the rejection(s) of claim(s) 1, 2, 11-13, 21, 22, 31 and 32 under 35 U.S.C. 112, second paragraph have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 11, 21, and 31 rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: applying the probe to the magnetic head. The claims as presently constituted fails to make a connection between the probe and the magnetic head, or read/write head. Applicant needs to specify where the probe is measuring the heat flow.
